Hello! I am a mobile developer specialized in Flutter and Dart, with nearly 7 years of experience developing innovative and high-performance applications. Throughout my career, I have worked on a wide range of projects, from simple applications to complex solutions, always focused on creating engaging and responsive user experiences.

I have strong expertise in software architecture, API integration, state management, and testing. I am passionate about staying up to date with the latest trends and best practices in mobile development. I have experience working in agile teams, collaborating effectively with designers and other developers to deliver solutions that meet user and market needs.

I am always looking for new challenges and opportunities to expand my skills and contribute to innovative projects. Let's talk about how I can help turn your ideas into reality.

---

## Skills
